1. Your personal learning objectives for the term

My personal learning objective for this term is to gain a hands-on learning experience about working with the technologies that I intend to specialize in.

Understanding and implementing the concepts of orchestration.

Perfecting interpersonal skills.

Mastering my technical skills and learning new skills to strengthen my knowledge base.

2. Your deliverables, and their respective deadlines

- Backup and Restore on NetApp Kubernetes Services using Heptio Ark (July 16)**
- Backup and Restore on application deployed on NetApp Kubernetes Services using Heptio Ark (July 19)**
- Backup and Restore of storage (AWS EBS) used by application deployed on NetApp Kubernetes Services using Heptio Ark (July 26)**
- Integrating support for ONTAP storage in Heptio Ark (August 15)**
